

- oil pressure - EIS
- EIS warning lamp - supplied lamp
- low fuel level - LT & RT - supplied indicators
- low coolant level - supplied indicator
- low voltage - red LED (from LVWAABMM) - no resistor
- alternator output ammeter & warning light - EIS
- low fuel pressure - flashing red LED - 330 ohm
- auxiliary fuel pump active - green LED - 510 ohm
- bus voltage DVM - switchable between primary & backup battery
- over-voltage - flashing red LED on switch panel
